YOU ARE NOT LIMITED TO THESE VEHICLES!

Freedom Fueling Solutions can engineer, design and develop a Natural Gas or Propane system for any gas burning vehicle platform. All of our systems are *EPA Certified* and use our exclusive, state-of-the-art alternative fuel components.

**Dedicated Propane System

What is a Bi-Fuel System?

Our Natural Gas systems are bi-fuel systems meaning they can run on Natural Gas OR Gasoline with the press of a button. You never have to worry about being stranded without a filling station near by. And when you get low on Natural Gas, our systems automatically switch back to Gasoline. *Use Natural Gas when can and Gasoline when you have to!*
