FREIGHTLINER

CASCADIA® 113" DAY CAB
ALTERNATIVE POWER NATURAL GAS

113" Day Cab

CASCADIA® 113" DAY CAB

Freightliner's Cascadia 113 day cab natural gas vehicle. The clear advantage.

The Freightliner Cascadia® day cab will be available with the cleanest engine technology in the market today: natural gas. Designed for regional haul and LTL applications, this truck offers unparalleled benefits that help businesses increase productivity, performance and profitability. The Cummins® Westport ISX12 G engine is factory installed and warranty covered.

A greener bottom line.

Switching to natural gas can lead to significant fuel cost savings. As the cost of diesel continues to rise, lower natural gas prices remain relatively stable, making natural gas an economical choice to meet your regional haul and LTL needs. For current compressed natural gas prices and fueling stations near you, visit CNGPrices.com.

CUMMINS WESTPORT ISX12 G NATURAL GAS ENGINE

- Uses stoichiometric cooled EGR combustion
- EPA 2010 and CARB emissions standards compliant
- Available up to 400HP, 1,450 lb-ft torque
- No SCR aftertreatment system is required
- Maintenance-free exhaust system
- No DPF regeneration, cleaning or replacement
- Spark ignited
- Dedicated natural gas engine – no dual fuel
- Reliable and durable
- Highest power-to-weight ratio in its class
- Shares many components and parts with ISX diesel engines
- Domestic fuel source reduces dependence on foreign oil
- Compatible with either compressed natural gas (CNG) or liquified natural gas (LNG)

FUEL TANK OPTIONS

- A number of vendor-installed fuel tank configurations are available, including up to 155 diesel gallon equivalent (DGE) CNG configurations, more than doubling the fuel capacity featured in previous product offerings.

DRIVER COMFORT/DRIVER RETENTION

- Increased belly, leg and elbow room
- More headroom for the tallest driver
- Large, comfortable seats fit drivers of all sizes
- Powerful HVAC system with 6 outlets
- Cab insulation and pre-stressed walls reduce noise

SAFE AND EASY TO DRIVE

- Wrap-around dash with controls that are easy to see, use and operate
- A tilt-telescoping steering column adjusts for driver comfort
- Steering wheel controls keep hands on wheel and eyes on road
- Life Guard RollTek® reduces injury and accident costs (optional)

MAXIMUM MANEUVERABILITY AND VISIBILITY

- Up to 50-degree wheel cut
- A sloped hood for optimum visibility
- Improved mirrors for greater visibility range

SUPERIOR FUEL EFFICIENCY

- Wind tunnel designed and tested over 2,500 hours and 16 months
- Optimized aerodynamics reduce fuel consumption
- Available with airshield roof fairing

MONEY SAVING MAINTENANCE AND SERVICE DESIGN

- Fixed pin locations in electrical connector for easy service
- Convenient Power Distribution Module reduces downtime
- Standardized components and headlamps cut repair costs
- Three-piece bumper – reduces repair costs
- Three-piece rain tray for top-of-engine access
- Gas strut-assisted hood for effortless open and close
- Breakaway mirrors decrease cab and hood damage
- Roped-in windshield for easier replacement
